COMMENTS: "I am a resident writing to request that TCEQ grant a contested case hearing on TPDES Permit No. WQ0000947000, renewed June 8, 2026 for the Trinidad Steam Electric Station. The permit was renewed without public hearing, without cumulative impact assessment of related water authorizations affecting Cedar Creek Reservoir, and without PFAS testing requirements despite this

discharge affecting a drinking water watershed serving 2.5 million people. I request a full public hearing before this permit becomes permanent.
